1) Install prerequisites (one-time)

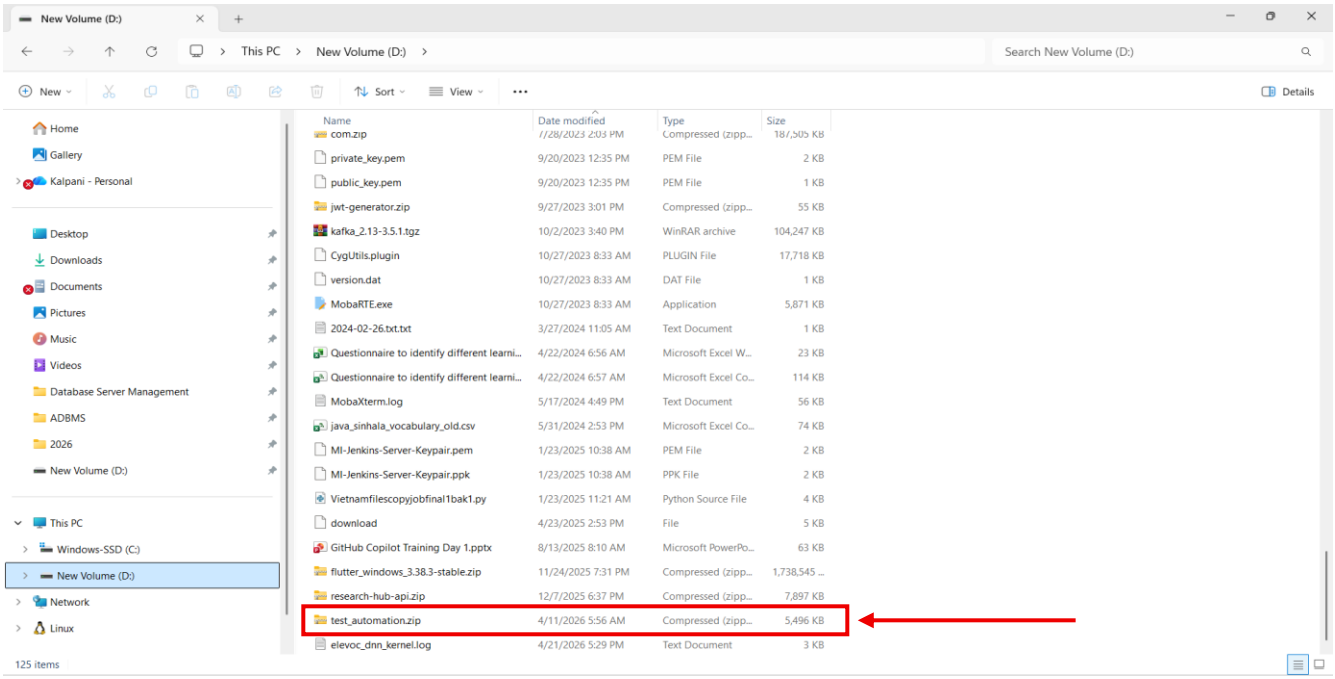
- Install Python 3.11/3.12

- Install Google Chrome (recommended) or let Playwright install Chromium

2) Set up the project environment

- Open the provided zip folder

- Save the ZIP file to your **D: drive** and extract it

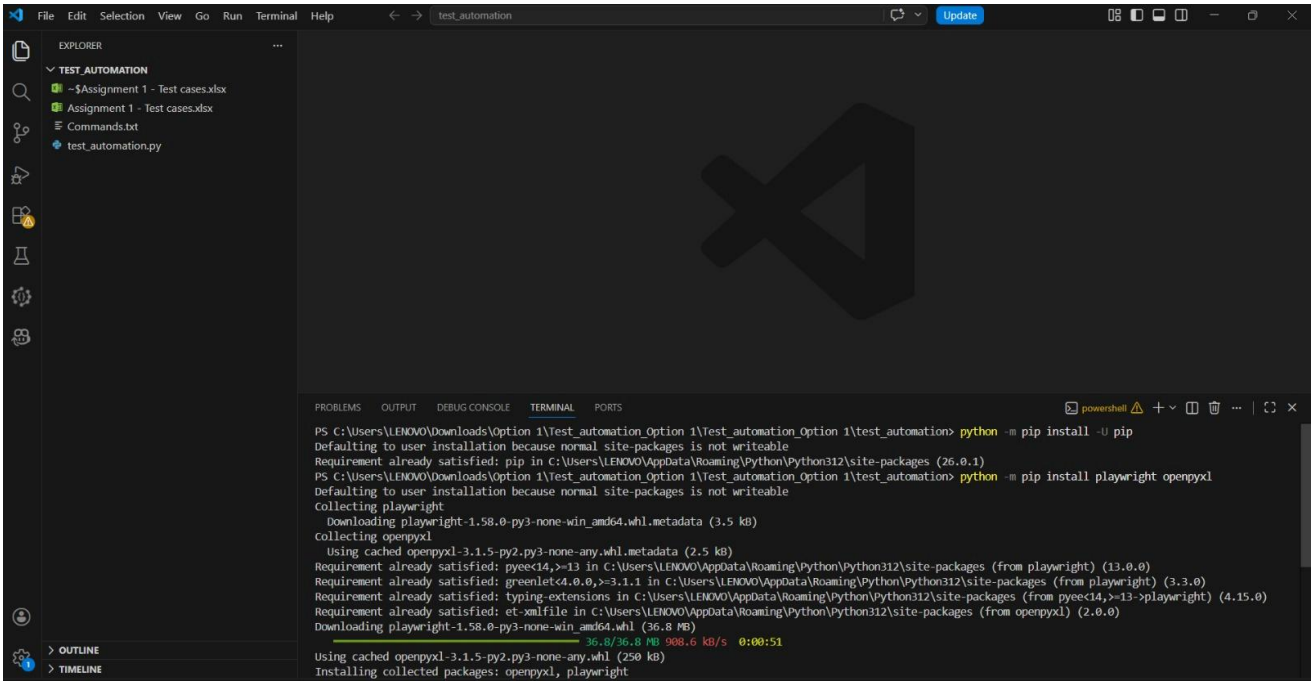


- Open the **Command Prompt**

- In **Command Prompt**, navigate to the **extracted** folder by typing the following command: **cd /d D:\test_automation**

3) Install the required dependencies (one-time)

- From the current directory in **Command Prompt** (i.e., D:\test_automation), run the following commands:
    - pip install -U pip
    - pip install playwright openpyxl
    - playwright install



4) Record the test cases in the Excel file

- Open '**Assignment 1 - Test cases.xlsx**', which can be found in the extracted folder.
- Add the values related to your test data under the following column headers: **'TC ID', 'Input length type', 'Input', and 'Expected output'**. **DO NOT** enter any values under the '**Actual output**' and **'Status'** columns.

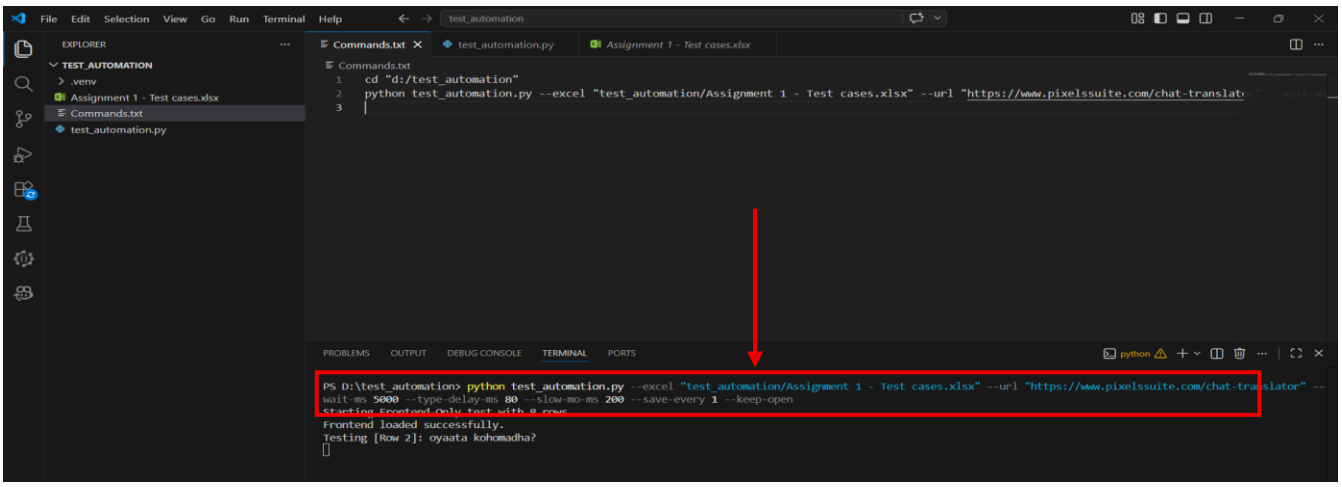
5) Run the Playwright script

- Go back to the Command Prompt
- From the current directory in Command Prompt (i.e., D:\test_automation), run the following command:
  - python test_automation.py --excel "test_automation/ Assignment 1 - Test cases.xlsx" --url "https://www.pixelssuite.com/chat-translator" --wait-ms 5000 --type-delay-ms 80 --slow-mo-ms 200 --save-every 1 --keep-open



6) Check results

- Go to the 'test_automation' folder
- Reopen the Excel file and verify whether the values **automatically** recorded under the '**Actual output'** and '**Status'** columns are correct.

7) Add additional columns to Excel file

- After completing above review, add the following **two** columns next to the '**Status**' column:
  - Singlish input types covered
  - Evidence or rationale for the input type covered

- **Manually** fill in the values for these two columns based on your assessment. Refer to the template provided in **Appendix 2** of the assignment document for guidance on how to enter the values for the two columns.
